Tips, general (1/2)

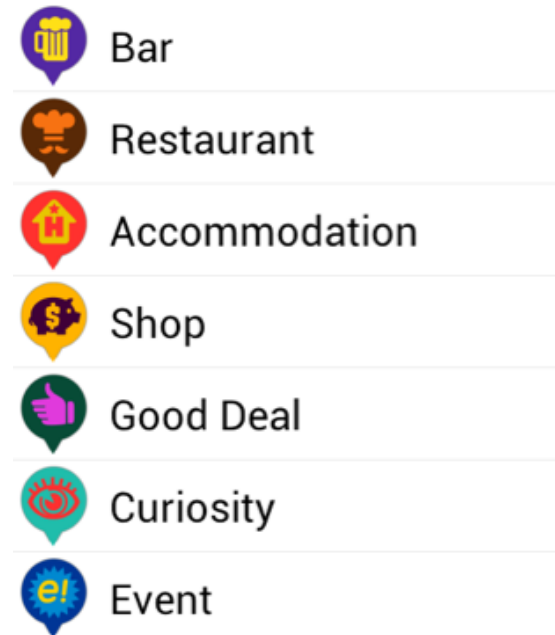

You can create Tips in 3 different ways;

- Tap on the map 
- From your current location 
- From the search bar 

You can create tips with or without GSM network (check your GPS connection).

Tips are associated to categories.

The category "Event" allows you to associate tips to a specific date or time period.

Tips, general (2/2)

Tips associated to your profile and that are visible by your contacts are;

- Those you created
- Those you commented on or rated
- Those on which you've selected "I like"

A light gray rectangular button with the text "Create tip" in a dark gray sans-serif font.A dark gray rectangular button with a white plus icon inside a circle on the left and the word "comment" in a white sans-serif font on the right.A dark gray rectangular button with a white heart icon on the left and the text "i like" in a white sans-serif font on the right.

Tips are either;

A light gray rectangular button with the word "PRIVATE" in a dark gray sans-serif font.A blue rectangular button with the word "CONTACT" in a white sans-serif font.A light gray rectangular button with the word "PUBLIC" in a dark gray sans-serif font.

- "PRIVATE" visible by you only
- "CONTACT" visible by your contacts only
- "PUBLIC" visible by all SnT users

"Map" Locates the tip on the map

Modify your tips

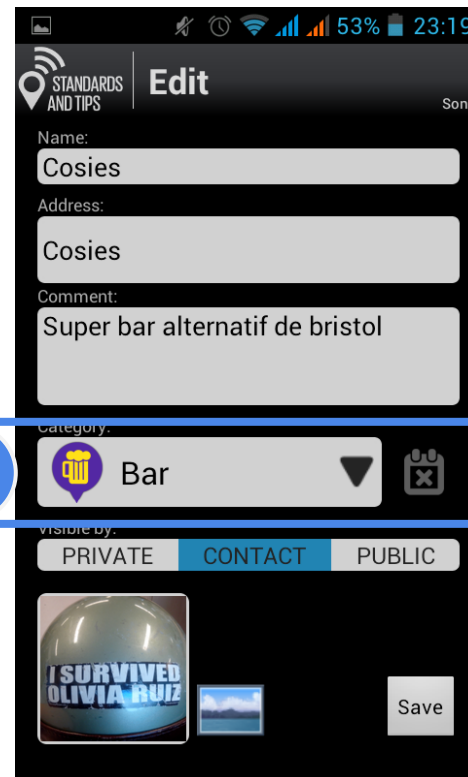

A

From the tip you have created, click on "edit" to modify the tip.

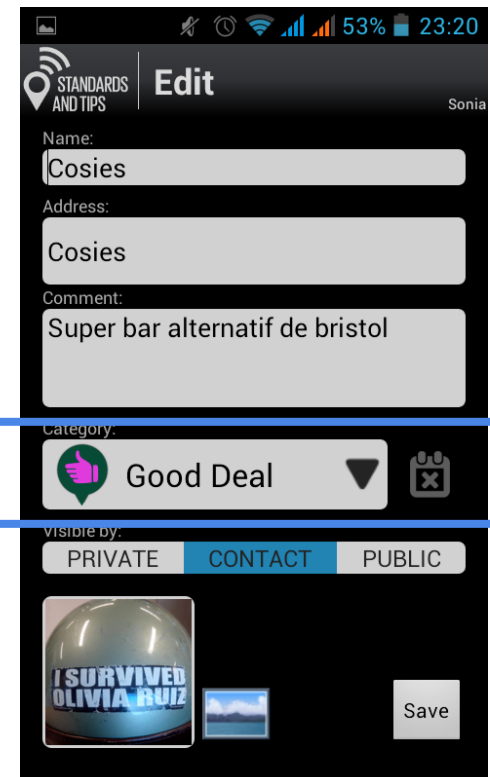

Any data entered during the tip creation can be modified by you.

B

Example: The category has been modified.

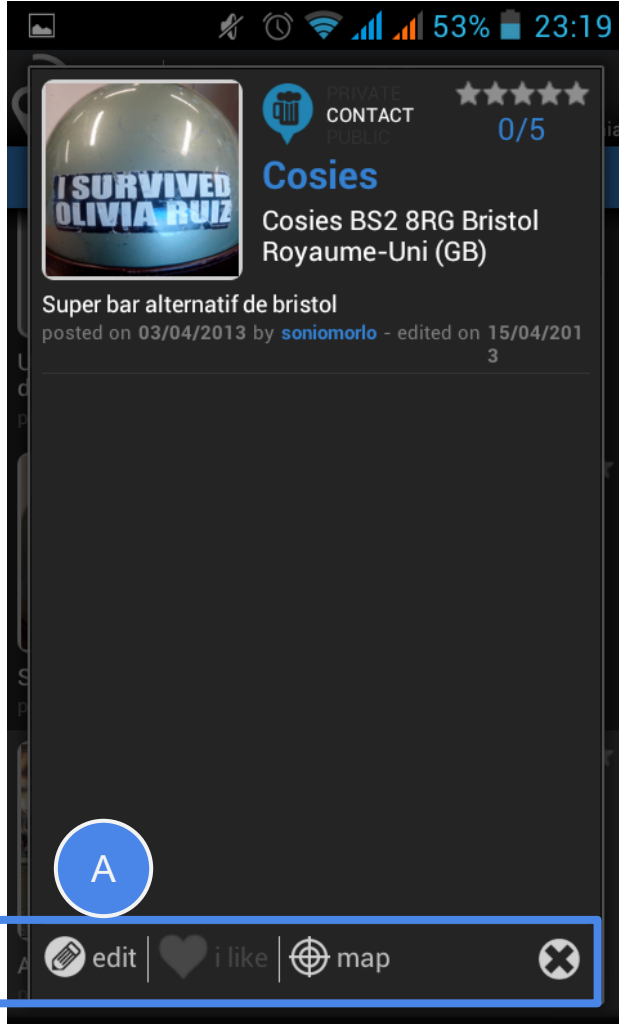

B

Tips ownership & Visibility

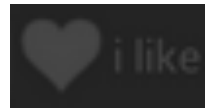

"I like" Icon

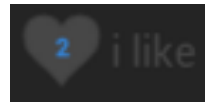

A

At the bottom of every tip detailed view, there is an Icon "I like" .

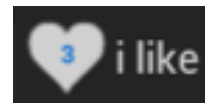

With this Icon, you can have 3 different informations :

Heart is grey and no number written , means nobody (either yourself or amongst your contacts) clicked on it.

Heart is grey and there is a number written , means different people amongst your contacts clicked on it (the number tells you the number of people).

Heart is white and there is a number written, means you've clicked on it also.

By Default, you can not select "I like" on a tip created by yourself .

If you comment a tip created by others, or if you select "I like" on the tips of your contacts, the tip is associated to your profile and then visible by all your contacts

Contacts management

A

Displays the total number of contacts

B

Sort your contacts by;

- alphabetical order
- by date of creation
- new contacts

C

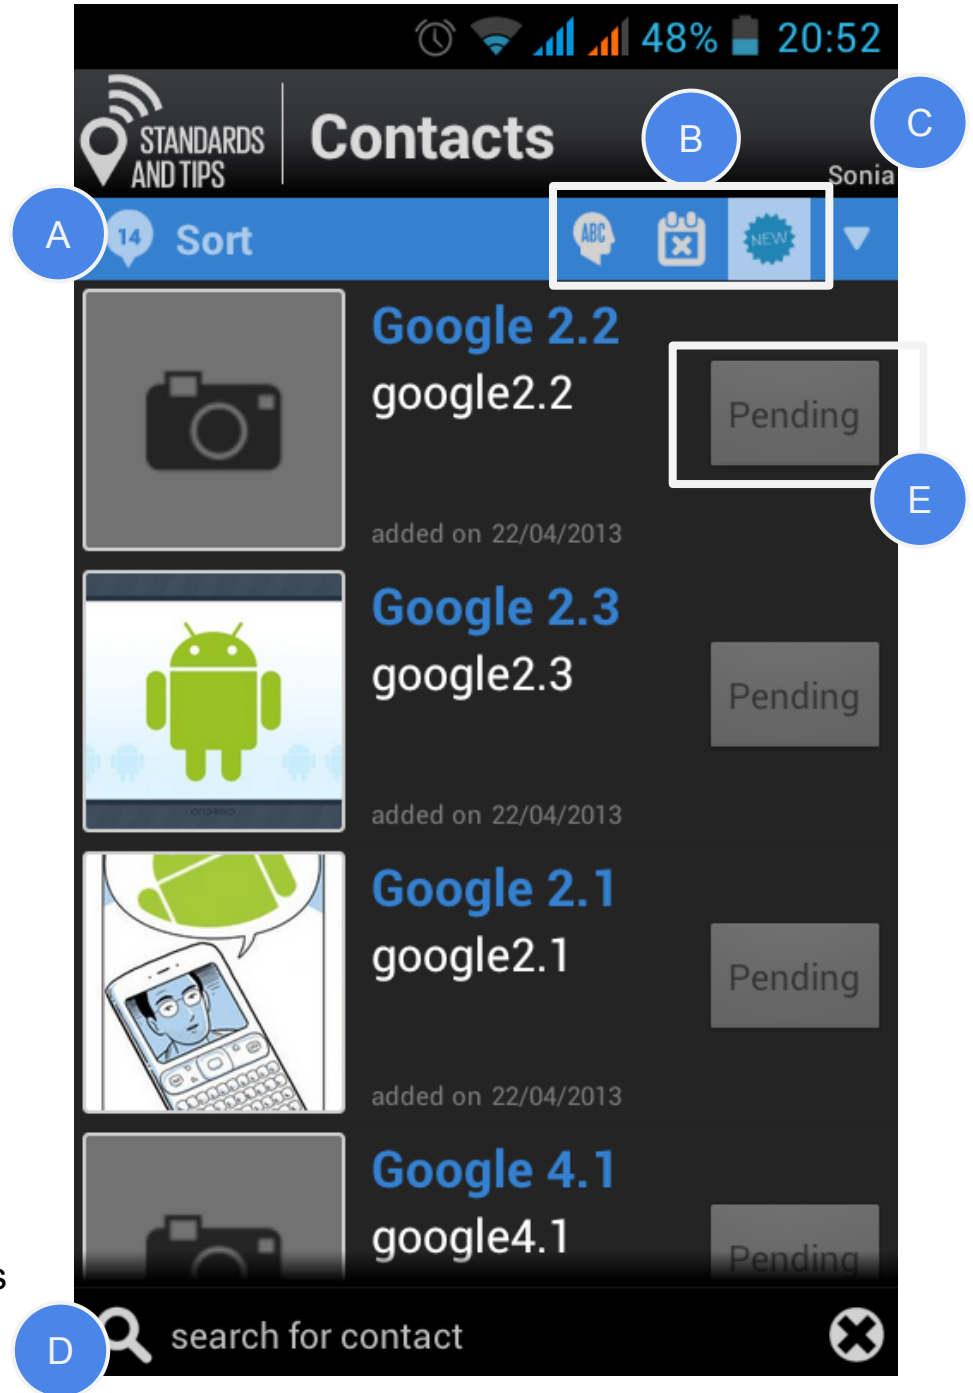

A long click on your profile name gives you access to your profile

D

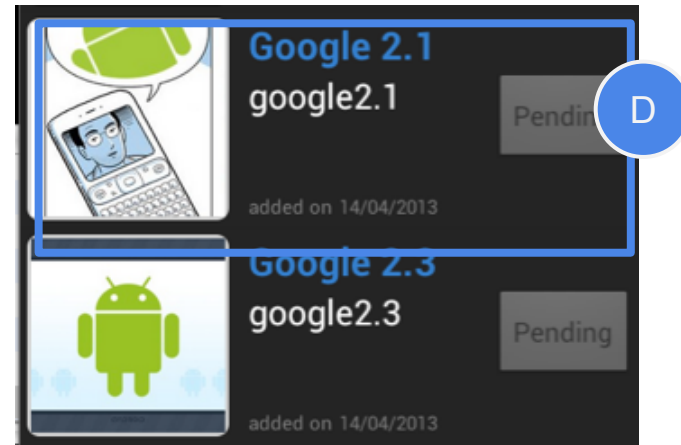

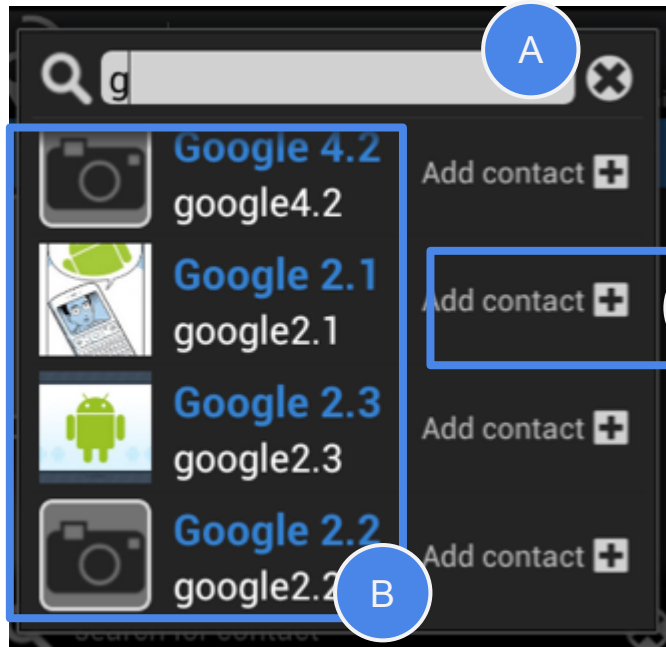

Search for new contacts among SnT users (from their email, logon or name)

E

Show if you have pending friends requests

Search/invite contacts

A

Search for SnT user by entering their name (only first letters are required)

B

The contacts corresponding to the entered data are displayed

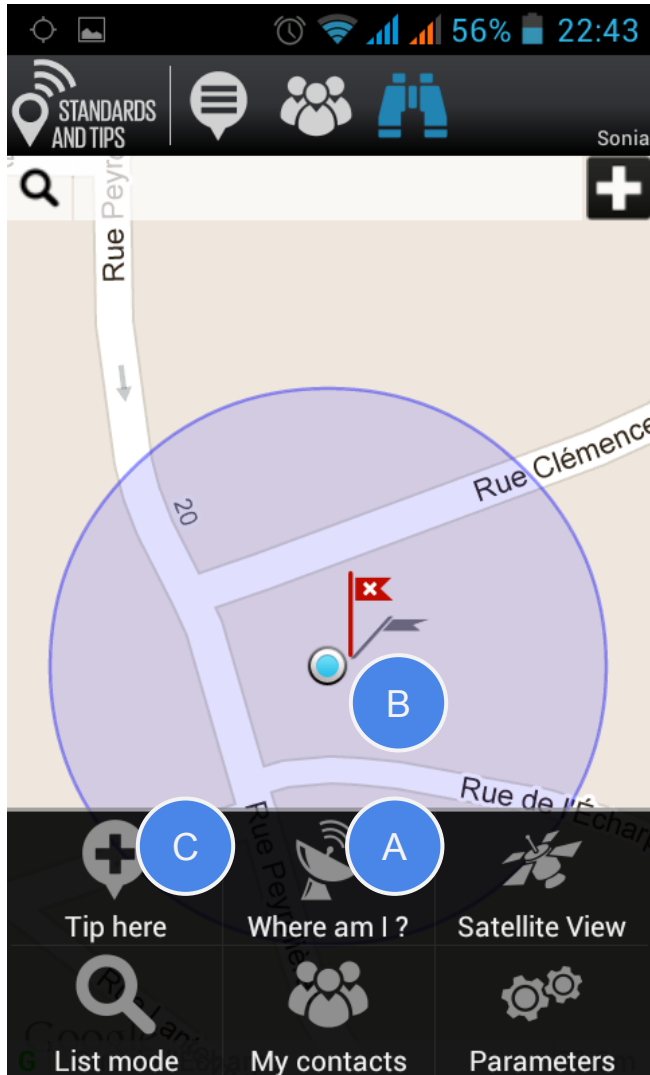

C

Click on "Add contact" to add them to your list of contacts

D

The contact is then displayed in your contact list. 'Pending' will be displayed until your request has been accepted. Tips of your new contact will then be visible to you.

Create a tip/event from your current position (1/2)

A

Click on "Where am I"

B

Your current position is displayed on the screen

C

Click on "Tip here"

Create a tip/event from your current position (2/2)
